

Gemini Industries Inc.

EMPLOYMENT

Gemini Industries Inc. provides technical, management and operations services to support the Global War on Terrorism. At the United States Special Operations Command (USSOCOM) Gemini supports acquisition, logistics, intelligence systems, fixed wing platforms, anti-terrorism and counter-terrorism technologies and special applications. We also provide technical and management solutions as well as support for the integration of technology to enhance performance and reduce operating costs.

Location: Tampa, FL

Clearance Required: Top Secret/SCI

Position: Business Process Improvement Manager

Overall Responsibilities:

- Applying communication, analytical, and problem-solving skills to help maximize the benefit of systems and process improvements.
- Understanding clients' business processes
- Creating process and/or data flow diagrams to accurately reflect current and proposed business
- Working cross functionally with all levels of management to determine business requirements and propose how to effectively automate those processes
- Interviewing and documenting the results of customer interviews
- Collaborating with business and technical resources to ensure all requirements adequately reflect the defined business processes and support the functional business requirements
- Working with various business groups in the organization to facilitate implementation of new or improved business processes for all business critical to core organizational functions

Background:

- 9 Years Exp. + M.B.A., or Master's Deg. in Engineering or related field.
